Full-stack web developer excited to develop responsive websites and collaborate with others to create meaningful applications. Recently earned a certificate in full stack development from the University of Arizona Coding Bootcamp, with newly developed skills in technologies like JavaScript, CSS, Node.js, React.js, ect. Known as a great problem solver, excited to be developing apps, with a focus on performance and accessibility. With each project, my aim is on how to best engage my audience for an impactful user experience. Recently I applied aspects of Express and React in a project. I worked on a team of four to develop a multi-page application that allowed users to buy and sell clothing, contained a login-logout system, and gave the user the ability to post reviews on other user's posts. I'm excited to use my skills as part of a fast-paced, quality-driven team to build better experiences on the web.

TECHNICAL SKILLS

JavaScript, CSS, HTML, SQL, NoSQL, GitHub, MongoDB, MySQL, Express, React, Node, Handlebars, jQuery, Bootstrap

PROJECTS

Ammino Disrespect

Github: <https://github.com/SonnyAddison/amminoDisrespect.git>

Live Deployment: <https://sonnyaddison.github.io/amminoDisrespect/>

- Summary: Aids the user in the creation of a workout plan by providing them with specific workouts based on their choice of muscle. And helps keep track of their meal plan as well.
- Role: Team Collaborator
- Tools: HTML, CSS, JavaScript, API's, Local Storage

Text Editor

Github: <https://github.com/azariahgarrido/textEditor.git>

Live Deployment: <https://nameless-reef-69253.herokuapp.com/>

- Summary: Creates a desktop shortcut called JATE. Functions like a note taker and works both online and offline.
- Role: Sole author
- Tools: HTML, CSS, JavaScript, Webpack and Babel.

Tech Blog

Github: <https://github.com/azariahgarrido/techBlog.git>

Live Deployment: <https://pacific-river-09872.herokuapp.com/>

- Summary: Tech Blog is an application that will allow the user to login and logout. Add, delete, and update comments and posts. As well as see others posts and comments.
- Role: Sole Author
- Tools: Express, SQL, Bcrypt

EXPERIENCE

Student Web Developer 2022-Present University of Arizona Coding Bootcamp

I am an extremely quick learner, I had absolutely no experience in coding anything before attending bootcamp. As a matter of fact, I didn't even know that JavaScript existed, but now I can code an entire business website, a mobile app, or even a game, the possibilities are endless. I now know that I am going to code for the remainder of my life, and would love nothing more than to continue learning as a part of your team.

EDUCATION

Certificate, Full Stack Web Development – University of Arizona, Tucson, AZ
